JOHN HAUT

2195 Robert Street, Irwin, PA 15642 | 724-708-1280 | jhaut@athletics.pitt.edu

PROFESSIONAL SUMMARY

IT professional with 4+ years of hands-on experience supporting technology across a large university environment, including endpoint deployment, hardware/software troubleshooting, and team coordination. Currently completing a B.S. in Computer Science while working full-time in a technical support role. Known for reliable problem-solving, clear communication, and building tools (Power Apps, SharePoint, Power BI) that streamline day-to-day operations.

EDUCATION

University of Pittsburgh **Fall 2021 – Expected Dec 2026**

B.S. in Computer Science | 114 credits completed | 3.5 GPA

- Completing degree part-time while working full-time on campus; final two courses remain before December 2026 graduation.

WORK EXPERIENCE

Athletics Technical Support Analyst **January 2026 – Present**

University of Pittsburgh, Pittsburgh, PA

- Provide technical support for computers, mobile devices, and software systems across the Athletics department.
- Maintain and troubleshoot hardware and software, identifying and implementing improvements.
- Deliver on-site IT and AV support at department events, activities, and facilities.
- Train coaches, staff, and athletic trainers on devices and software used in daily operations.
- Set up new hires with phones, iPads, and laptops.

Pitt Digital Drop-In Support Desk Coordinator **February 2023 – January 2026**

University of Pittsburgh, Pittsburgh, PA

- Built and managed schedules for student staff and trained them to succeed in their roles.
- Resolved scheduling conflicts and maintained accurate student work hours.
- Coordinated International Travel device requests for faculty and temporary device loans for students.
- Supported student workers in troubleshooting technical issues at the desk.
- Developed Power Apps, SharePoint Lists, and Power BI reports to track student hours and print jobs.

Student Endpoint Technician **June 2022 – February 2023**

University of Pittsburgh, Pittsburgh, PA

- Reimaged loaner devices for redistribution across campus.
- Set up new hire offices and hoteling spaces.
- Assisted professors with technology needs and troubleshooting.
- Collaborated with colleagues to transition outdated inventory to Surplus.
- Followed tech leads' direction to resolve issues campus-wide.

Help Desk Technician **October 2021 – February 2023**

University of Pittsburgh, Pittsburgh, PA

- Handled inbound calls for the University's technology Help Desk, directing users to effective solutions.
- Assisted colleagues in resolving complex caller issues.
- Trained new staff in Salesforce and effective troubleshooting practices.
- Researched solutions for unfamiliar technical problems.

SKILLS

- Strong communication and professionalism when working with colleagues and the public.
- Technical troubleshooting across a wide range of devices and operating systems.
- Proficient with Pitt Worx, PeopleSoft, Statbroadcast, and Team Dynamix.
- Experience building tools with Power Apps, SharePoint, and Power BI.
- Salesforce & TDX case management and end-user training.
